To Whom It May Concern:

My name is Linda Allchin and I am a registered nurse of 34 years duration. I graduated from a three year diploma program in 1970 and worked for 32 years in intensive care nursing as a staff nurse, a head nurse and a critical care educator. In 1991 I became a massage therapist, began utilizing allergy elimination techniques in 1997, and opened my own practice, Pathways to Wellness in 1998.

I received training of Neuromodulation Technique from Dr. Feinberg in 2002 and then began utilizing only this technique to successfully alleviate symptoms of clients who have chronic sinus infections, asthma, arthritis, irritable bowel syndrome, chronic pain and allergies plus other symptoms that interfere with their optimal health.

I have attended the comprehensive and advanced seminars several times in the past two years and found that NMT is taught by the NMT seminar manual, that the system works as disclosed and is useful in alleviating symptoms with clients.

Yours Sincerely,

Pathways To Wellness

Linda Allchin R.N.
